

Logistics specialist – Fulltime 6 months

We are on a journey to implement our new ERP S4Hana (SAP) system which will go live mid 2025. One of the key objectives during the go-live phase is to maintain service levels to our customers. The candidate will support our logistics organization during the switch into the new ERP system. The role is for an initial duration of 6 months with the option for extension depending on the ERP implementation and availability of resources.

RESPONSIBILITIES & TASKS

- Ownership of handling operational activities within the logistic execution area while keeping all stakeholders informed.
- Responsible for meeting the applicable Distribution & Warehousing goals and objectives for the appointed site(s) within Europe (e.g.: cost, on time delivery, inventory accuracy and reporting)
- During the new ERP implementation project, the expectation is that activities require additional monitoring and/or follow up. You will support the logistics department in the day-to-day activities with the objective to minimize any impact on our customers.

PROFILE

- Bachelor level, degree in Business, Logistics or comparable is considered a plus
- Supply Chain background
- ERP knowledge is preferred (with Logistic Execution background)
- Minimal 2 years' experience within Supply Chain, Logistics or Operations
- Excellent Excel skills
- Work independently in a rapid changing environment, taking responsibility for delivery of business expectations.
- Strong communication skills and capable to communicate at different levels in an organization
- Fluency in English (verbal & written)
- Team player
- Excellent understanding of key business processes and organizational dynamics

WHAT WE OFFER

- Salary according own CLA
- Flexible working hours
- Travel expenses
